There is nothing new in the stock market. Prices were well sustained, and there was considerable acti-vity among the leading fancies. At the first board, North American Trust advanced 1/2 per cent, MetropoHens Bank 1/4, Nicaragua Transit Company 2, Florence
and Keyport 1/4, Dauphin Coal Company 1/4, Norwich
and Worcester 1/4, Reading Railread 1/4. Delaware and
Hudson declined 1/4 per cent. New Jersey Zinc 1/4, Harkm 1/4, Stenington 1/4. At the second board the market
was remewhat weak, and closed rather heavy. New Jer,
sey Zinc (ell off 1/4 per cent. Morris Canal 1/4. Harlem 1/4. stock on the list, and entirely unknown in the street.
What mineral the company produce is yet a mystery.
While the speculative spirit of the community is advancing so rapidly in the direction of our mineral ressurces, it may perhaps be well to be cautious, and carefully scrutinize the position and prospects of every new company presented for public consideration. It is not alone a fine title or brilliant promises that are guaranty of a dividend. It requires something more to attract and fix a dividend. It requires something more to attract and fix the attention of capitalists; and it is particularly necessary at this time, to adopt such measures as will prevent, if possible, another of those collapses in the mining inte, neat which heretefore have been so frequent and so fatal. The success of one mining company, whether it be coal, men. lead, or zinc, gives rise to half a dozen others, imita-tations; each of which puts forth most extravagant statements, and as extraordinary as it may appear, many of them partially succeed in their object. We have late by made some progress in establishing the mining interest of this country upon a substantial basis, and have had hopes of giving it a healthy impetus, but the movements recently made to put upon the market the most worthless stuff in the shape of mining stocks, have raised serious doubts in our mind relative to the success of any new company, no matter what may be its real merits. The good, bad, and indifferent are likely to be so mixed tegether, as to make it impossible to tell which is which, It is not necessary to name any of the companies now on the list of the wild cat order, as it is presumed those who contemplate purchasing, will post themselves up thoroughly before becoming involved. The receipts at the office of the Assistant Treasurer o

The demand for foreign exchange, for remittance by the steamship Pacific to morrow (Saturday), has been quite moderate. Prices have, however, been firmly sustained. We quote bills on London at 10% a 10% per cent premium; on Paris 5 f. 17½ a 5f. 15; Amsterdam 40½ a 41; Bremen, 78½ a 79; Hamburg, 36½ a 36½. The Pacific will take out about half a million of specie. Counterfeit three dollar notes of the Saratoga County

Bank are in circulation. The one that we have seen i letter A. No 717, dated Dec. 1, 1851, payable to B-White. It is well intended to deceive at first sight, but is not calculated to stand the test of close examination. The end vignettes are well executed, but the centre vig. mette is very coarsely done, and there is a want of finish and irregularity in the lettering of the note, which will st once attract the attention of any judge of bank paper, Counterfeit Fives on the Leicester Bank, Luicester,

Mass.. have just made their appearance. The plate is the same as that used in the Claremont Bank, and the counterfeit may be distinguished in the same manner viz.. by observing the water in the vignette. In the genuine the waves run nearly horizontal; in the counter-Seit the water seems to be covered with S's. The counterfeit is the most dangerous ever issued, and will deweive, unless a very close inspection is given. We advise those not much acquainted with money to refuse all fives on the Leicester Bank.
